Subject: Proposed Air Quality Change to Class 1.

I am completely against the proposed changes! There is absolutely NO reason for the change!

I have lived in (b) (6) and have heated my home with wood for that entire time.

This proposal appears to be an issue of good neighbors turning into bad neighbors, because they now have the money to force the rest of us under their whims of control! NOT A GOOD IDEA!

I view this proposal as an act of domestic terrorism!

By forcing the huge area in question under a Class1 AQR you will effectively removed my ability to economically and comfortably heat my home during cold weather.

You will also be responsible for both state and federal government interference in the lives if thousands of residents in the proposed area!

I will fight this stupidity in any way possible!

STOP IT NOW! PULL THE PROPOSAL!
